

WHAT IS CLAIMED IS:

1. A hosiery system, comprising:  
a foot covering for covering at least one foot wherein the foot covering has an upper edge portion; and  
a leg covering for providing thigh support, comprising at least one lower edge portion, wherein the lower edge portion of the leg covering is coupled to the upper edge portion of the foot covering.
2. A hosiery system in accordance with Claim 1 further comprising attachment device for attaching the at least one upper edge portion of the foot covering to the at least one lower edge portion of the leg covering.
3. The hosiery system according to Claim 1 wherein the at least one upper edge portion of the foot covering is substantially located between the ankle and the knee of a wearer.
4. The hosiery system according to Claim 1 wherein the attachment device comprises stitching.
5. The hosiery system according to Claim 1 wherein the foot covering comprises at least one sock.

6. The hosiery system according to Claim 1 wherein the leg covering comprises pantyhose.

7. The hosiery system according to Claim 1 wherein the leg covering comprises at least one thigh-high stocking.

8. A hosiery system, comprising:

a foot cover to cover at least one foot and having at least one upper edge portion;

thigh support adapted to support at least one thigh and having at least one lower edge portion; and

at least one attacher adapted to attach the at least one upper edge portion of the foot cover to the at least one lower edge portion of the at least one thigh support.

9. The hosiery system according to Claim 8 wherein the at least one upper edge portion of the foot cover is substantially located between the ankle and the knee.

10. The hosiery system according to Claim 8 wherein the at least one attacher comprises stitching.

11. The hosiery system according to Claim 9 wherein the foot cover is a sock.

12. The hosiery system according to Claim 8 wherein the thigh support is pantyhose.

13. The hosiery system according to Claim 8 wherein the thigh support is a thigh-high stocking.

14. A method for providing a fashion choice of differing foot cover and thigh support, comprising:

selecting at least one user-selected foot cover having an upper edge portion;

selecting at least one user-selected thigh support having a lower edge portion; and

coupling the upper edge portion of the user-selected foot cover to the lower edge portion of the user-selected thigh support.

15. A method for providing the fashion choice of differing foot cover and thigh support according to Claim 14 further comprising:

user selecting at least one sock of a given size and fashion as the foot cover; and

user selecting pantyhose of a given size and fashion as the thigh support.

16. A method for providing the fashion choice of differing foot cover and thigh support according to Claim 14 further comprising:

user selecting at least one sock of a given size and fashion as the foot cover; and

user selecting at least one thigh-high stocking of a given size and fashion as the thigh support.

17. A method for providing the fashion choice of differing foot cover and thigh support according to Claim 14 wherein such selecting occurs on a user interface of at least one internet website.
